

Office Manager

PredictImmune Limited, Cambridge, UK

The Company

PredictImmune was created in early 2017 as a spin-out from the Department of Medicine, University of Cambridge UK.

It is a new generation molecular diagnostics company offering a unique approach for the prognosis of immune-mediated diseases such as Inflammatory Bowel Disease, Lupus, Multiple Sclerosis etc.

PredictImmune is developing prognostic assays that are simple, robust and based on RT-PCR using whole blood samples and test methodology that is routine in clinical laboratories. We aim to be the first company to offer predictive tests in immune-mediated diseases which will facilitate personalised treatment and thereby improve patient outcomes and health economics.

PredictImmune will provide its proprietary technology as both a laboratory service and as a kit depending on the needs of global markets.
